COTTON MARKETS

Market Extremely Nervous, But Apparently Technical Position Improved.

Wednesday afternoon, Aug. 6 Exertme nervousness characterises trading in the cotton market and there is a conflict of influence which adds to the usual troubles of him who would undertake to meet the high cost of living from profits taken from the affair There is so much unrest and unsettle ment in so many different directions opinions are necessarily unstable subject to quick change. The altoday seemed to have reached onn for the time being, but buying an advance was scattered and few lessemed to have any fixed ideas also.

people seemed to have an of value.

The labor situation in this country shows no change for the better, while there is real uneasiness over the outcome of the tremendous demands that the leaders appear to be making. The movement to afford some relief to live movement to afford some relief to live costs goes on apace, yet the de instruction. ing costs goes on apace, yet the de-cline in foodstuffs had a check in the announcement from the head of the came in foodstuffs had a check in the announcement from the head of the grain corporation that wheat prices would remain fixed. The result was a sharp upturn in corn and provisions, leaving the main reliance for relief the effect of public opinion and administration efforts to run down the ones who are alleged to get a dispropertionate profit.

who are alleged to get a dispropertionate profit.

The exchange market was conspicuous and easiness reigned there, it bordering again almost on demoralization. In the early afternoon sterling was reported quoted at 4.36 for sight and 4.24 for 90-day, while francs were off even more, quoted at 7.70. The effect of this was naturally disturbing, although it had to share honors as a price influence with some other things. People who obviate any pronounced upward value movement soon, and some of them think further declines likely. Liverpool came better than due early, but quickly awakened and went sharply downward. There seemed little support and some private cables said that Manchester was prominent in the selling. Finals were upsettled at a net loss of 49 to 27 points. A cable said the market had been cleaned out and was healthier. Spots were marked down 52 points, middling to 19.20, with sales 4,000 bales, including 3,600 American. Receipts were 32,000, including 11,900 American. Manchester advised that there was less doing in cloths and yarns were 'rregular.

Opening in the domestic markets was

there was less doing in cloths and yarns were 'rregular.

Opening in the domestic markets was rather wild and irregular. In New York October started at 45 points off, at 31c, while December was off only 3 points. But there was seen some adjustment. The Japs were credited with buying, as was Wall street, while Liverpool at first was selling and later began to buy some. The recovery extended until October touched 31,98c, when another wave of selling came, only to be followed by an upturn of about half a cent. Then another dip, an upturn to 22,16c for October and after that backing and filling and a moderate recession. There was no regular trend and neither fide appeared anxious to do very much.

rery much.

The weather was generally favorable, a few light showers reported for the lastern belt, while temperatures were ather high in some few sections. Indications were for some showers in the lastern belt and fair in the wast, not help either way. The weekly summary was rather favorable, but had some features not to the liking of the bears. It proved barren of results as a factor.

ery steady. New Orleans closed 74 to 52 points up, one very steady. Spots were un-hanged, middling at 31.75c, and sales Liverpool is due to come 16 to 1 points up.
In the local market sales were 250 hales and quotations unchanged, middling at 34.50c.

MEMPHIS COTTON. Memphis cotton closed steady and un-hanged. Middling, 34.50c. Sales, 250

NEW YORK COTTON.

NEW YORK Aug. 6.—There was a renewal of yesterday's covering movement in the cotton market early today. Cables were lower than due and traders found no improvement in the news regarding general conditions while the weather map was considered favorable. Offeringa were much lighter than recently, however, and after opening steady at a decline of 6 to 23 points the market became active and firm on Liverpool buying an increased demand from domestic trade sources and covering by shorts. October sold up to 31.85c and January to 31.82c or about 26 to 50 points above last night's closing. The market met more selling around the 32-cent level and fluctuations later in the morning were very irregular. Rethe 32-cent level and fluctuations later in the morning were very irregular. Reports that leaders of the railroad men's unions did not contemplate calling a general strike were considered encouraging, but the weakness in foreign exchange and the favorable weekly report of the weather bureau were against the market and after seiling at 31.38c during the middle of the morning. October broke to 31.50c around middley.

While the advance to 32.10c for October and 32.10c for January, or about 60 to 85 points from last night's closing was not fully maintained, the market made a generally steady showing in the early afternoon with trading quiet.

Futures closed very steady at advance of 77 to 58 points.

NEW ORLEANS, Aug. 6. — Poor cables and favorable weather in the belt sent the price of cotton 32 to 55 points lower around the opening today, but a good demand met the break and a quick recovery followed. At the end of the first half hour of business prices were 10 to 31 points above yesterday's finals. Much of the buying came from realising shorts.

inais. Much of the buying came from realising shorts.

In the face of fairly favorable weekly crop reports and further breaks in the market for foreign exchange, prices continued to do better on fresh buying for long account and realising of profits by shorts. Toward moon the trading months were 45 to 55 points above yesterday's close.

Less business was done after the noon hour and also market turned quiet, but steady. At 1 o'clock prices were at net advances of 24 to 30 points.

Spots closed quiet and unchanged; ordinary, 19.75c; good ordinary, 21.75c; low middling, 32.25c. Sales on the spot, 75; to arrive, none. Delivered on contract, none.

Futures closed very steady at advance of 74 to 52 points.

GRAIN MARKETS

News That Wheat Price To Be Maintained Causes Big Rebound in Prains.

CHICAGO, Aug. 6.—Tremendous re-pounds in all grains and provision mar-kets took pince today following the ex-traordinary downturns which have been the rule of late. The sole cause of the new advance was the govern-ment's decision announced from Wash-ington that wheat prices would be kept infact on the guaranteed basis of \$2.25 a bushel. Rushes to buy corn sweet the mar-

intact on the guaranteed basis of \$2.25 a bushel.

Rushes to buy corn swept the market for the cereal upward in the liveliest possible fastion, and later prevented any material recession. This was not deemed surprising in view of the fact that corn in the last week had suffered a decline of 32c. Opening prices today ranged from 3½ to *5½ up with September \$1.75 to \$1.82 and December \$1.45 to \$1.52. After a full hour, the market was still near the top of the market was still near the top of the range which had been established in the first minute of business.

Numerous attempts which were made to depress the market proved unavailing. The close was strong near the top figures of the day. I to \$0 net higher with Sept. \$1.51½.

Oats rose with corn. After opening 2c to \$1½ higher, including September at 73c to 73c, the market continued to display atrength, though not to the same relative degree as corn.

Provisions were sharply higher in sympathy with grain. Demand, however, was of only a scattering character.

ter.
Foreign buying of lard was a bullish factor but offerings of all kinds of provisions increased on the advance and broughn about something of a reaction which, however, failed to last.

CUBAN SUGAR CROP WILL BREAK RECORDS

NEW YORK, Aug. 6.—The sugar crop of Cuba this year is expected to break all records, according to Gabriel G. Menocal, brother of the president of Cuba, who arrived here today from Havana on the Ward liner Mexico, accompanied by members of his family. Mr. Menocal asserted that because of abundant rains this season the crop next year also will be very large.

FROM WALL STREET

Further Recovery Made From Extreme Depression Except Rails and Shippings.

NEW YORK, Aug. 5.—Further recov-ries from Monday's extreme depres-lon were made by leading stocks at the pening of today's stock market. Rails and shippings were the exception, how-ver, averaging initial losses of a point. Nicela soultments, cobbsets, motors. Steels, equipments, coppers, motors, clis and tobaccos scored gains extending from one to 12 points. Brooklyn Transit was only moderately affected by strike, easing a fraction. Stronger tendencies ruled before the end of the first half hour on the better tone of rails.

rails.

Activity abated at noon, but further gains were the rule. Speculative favorites featured the extended advance, supplemented by United States Steel, Baidwin Locomotive, American International, American Smelting, American Linkeed, Cotton Olf, Industrial Alcohol, New York Dock and various motor specialties.

PORT WORTH, Tex., Aug. 6.—Cattle—Receipts, 5,000; steady, Beeves, \$8.50 gp13.75. Hogs. Receipts, 2,756; \$1.50 lower. Heavy, \$21.50@21.75. Sheep.—Receipts, 750; steady. Lambs, \$13.50@16.50. BOYS SHOOT TOO MUCH.

Residences are being used as targets for boys who are practicing with pistols in the vicinity of the Park and the Illimois Central railroad tracks, according to a report at the central police station.

Several homes have been punctured by bullets and dust kicked up by a leaden missile late Tuesday showered over a little girl on the porch of a residence. BURGLAR ROBS HOME.

Snaking his way through a basement window, a negro burglar, before dawn Tuesday, invaded the home of 8. Baumgarten, 1824 Walker avenue, getting away with considerable costly wearing apparet belonging to Mrs. Baumgarten. Read News Scimitar Wants.

ROUND THE TICKER

Ootton.

New York-Very confusing market, firm on buying by Mitchell and scattered shorts: offerings moderate; don't think will hold.—Clevenburg to Cotter & Turner.

New York—Liverpool, Wall street and Japanese buyers; market very un-settled, but less fiquidation. Will prob-ably railly, but doubt holding.—Hub-bard to Reese.

Liverpool cables: Think liquidation about over.

About over.

New Orleans—last year during the month of August the crop deteriorated 17.9 points, but at the present rate the condition of this crop will be far above the condition of a year ago by the 25th of the month when the next report be made up by the government.

New Orleans—Weather generally favorable, except for high temperatures western belt, 192 Fort Smith, Ark, Profiteering to be run down. None to be found in cotton, except perhaps with spinners. Numerous strikes in England, bakers strike in Liverpool, no bread made for the trade. Demands of railroad strikers causing apprehension in this country.

Liverpool cables: Market advanced

Liverpool cables: Market advanced on scattered buying. Eased afterward on long liquidation, both emanating Manchester, market very small.

New York wires: Sentiment mixed but Wall street and Japanese brokers good buyers, Mitchell sold, New Orleans-There is much in gen

eral news to indicate co-ordinate opin ion and design to cheapen the mar-kets. London publishes a long list o strikes and labor troubles. Our strik is given prominence in the press and reports from Northern mill districts say mills will not buy for some weeks.

—Clark & Co.

say mills will not buy for some weeks.—Clark & Co.

A New Bedford, Mass., wire said: Manufacturers of fine cotton goods are continuing to play the policy of watchful waiting, the cotton market for cloths requiring combed yarns being the chief bar to these mill men making any serious effort to book new orders. Aiready sold up in most cases as far ahead as their present supplies of raw material will carry them, they find it impossible to purchase suitable old cotton crop to cover further orders for cloth. The situation has been eased somewhat during the past week because of the new crop, which has been offered in fair quantities, if the mill men were willing to pay the prices asked. The fact that the more reliable shippers are not offering new crop, coupled with the fact that the manufacturers hesitate at asking further increases in prices for their products, has said its influence in discouracing inquiries for goods, and it is expected that this attitude will be maintained until the end of the month in an effort to keep prices at their present standard.

New Orleans—Weekly weather reports favorable as a said to a process.

New Orleans-Weekly weather re-ports favorable as a whole, but some shedding and extensive weevil damage reported.—Beer to McFall. New Orleans—The market will probably be a trading affair, with wide fluctuations. As market is well liquidated, buying on breaks should have a good chance for scalping profits.—Clark & Co.

Clark & Co.

New Orleans—The weather map is very favorable this morning, generally clear weather being shown over the cotton region. In the belt proper there are only three wet stations. Morning disputches state that the railroad strike is spreading in spite of the attempts by labor union officials to hold the men until a vote can be taken. New York again reports a "itet and easier cotton goods market and New Bedford reports not written in an optimistic vein.—Shepard & Gluck.

New York—Bad break in avokance. New York—Bad break in exchange Sterling \$4.31%, off 1%c; francs \$7.80

Early New York wire said bankers had scheduled meeting for afternoon to stabilize exchange. New York says demoralization in early exchange market; francs broke 12 points, sterling 4 points. New Orleans—Market acts like well liquidated no doubt many cheap contracts passed into consumers hands on the decline. Bears got to cover from each other.—Clark & Co.

New Orleans-Steady at advance in face of weakness foreign exchange. Trade very much concerned over re-ports shedding and rather extensive damage by weevils many localities belt. Echies, Liverpool, cables: "Think long interest Liverpool liquidated. Think prices near bottom." New Orleans—It is rumored that the rate of France exchange has fallen-to eight francs to the dollar, an unheard of quotation. The price on the close yesterday was 7.44. By some people this is thought to be the real reason for calling of the foreign exchange com-mission to an important session in New York this afternoon.—Shepard & Gluck.

New York—Buying has been done on assumption that a five-cent decline is sufficient to all bearish features. Foreign exchange will continue to disturb market and labor leaders in no mood to be placated.—Fallon. New Orleans—Would buy this cot-ton on these quick breaks. Contracts around ring grow scarce on any sign of real buying.—J. W. Barkdull to Me-Fall.

Grain. Memphis receipts: Corn 10, oats 27 and hay 11 cars. Chicago—Receipts: Wheat 1,383,000, corn 136,000, cats 723,000. Mapmenta: Wheat 1,560,000, corn 880,000, cats 125,-

St. Louis-Receipts: Wheat 228,000, corn 16,000, oats 42,000. Shipments: Wheat 270,000, corn 28,000, oats 87,000. Chicago-Government weekly United State crop report on corn about a standoff. Spring wheat very poor, Oats below expectation in some central dis-tricts.—Wagner & Co.

Chicago—We believe that the advance in December corn at the opening fully discounts the overnight news.—Wild. Grain Forecast—Illinois, Missourt, and Wisconsin, probably thundershowers, cooler tomorrow. Minnesota, Dakotas and Nebraska, generally fair tonight ad Thursday cooler. lowa and Kansas, unsettled tonight, Thursday generally fair, cooler.

Chicago—The selling of grain late year. fair, cooler.

Chicago—The selling of grain late yesterday was on reports that price of wheat would be lowered to \$1.78. It now turns out that there will be no lowering of wheat prices. Mr. Barnes in his statement plainly shows it is not the farmer who is the cause of the high cost of living, but the middle man and profiteer. The break yesterday was without cause. I expect to see all prices sharply higher today—Obyten to McFall.

Chicago—Sales Chicago today around Chicago—Sales Chicago today around 350,000, including 50,000 to the seaboard and 100,000 to a Southern port.

Chicago—Buying demand for December corn on the bulge only poor. Local trade inclined to believe the corn crop may be only a moderate affair, but they are watching the international news.—Wild to Shepard & Gluck.

SHARP CORN ADVANCE TRADERS WHIPSAWED

CHICAGO, Aug. 6.—An instantaneous upward jump of 4½ cents to 9½ cents a bushel was the response of the corn market today to the announcement that the government would maintain the guaranteed \$2.56 price of wheat. The biggest rise of the corn market was in the principal trading delivery. December, which soared at once to \$1.50. Wildness to buy was as evident today as the overwhelming rush to sell. Holders and speculators had done the selling yesterday on the expectation that the government would decide to pocket a huge loss and would at once cut wheat prices to consumers as much as 50 cents a bushel.

New soaring of prices extended to other commodities than corn. Oasguickly shot akyward 2c to 5½c, large 55c a hundredweight and pork \$1.50 a barrel.

One of the most salient features of

one of the most salient features of the excited trading was that spectators found themselves whipsawed to an extent not often equaled.

So large were the buying operations in the pits on change teday that individual trades, no matter on what scale, counted for little. Offerings were limited and came only from the comparative few.

One of the freakish developments twas that dealers for the most part regarded the cut of \$1\$ in flour prices as builtsh instead of bearish.

One of the reasons for the continued strength of the market in the face of the \$1\$ cut in flour prices was that it had been figured by traders here yesterday that flour would be reduced \$2\$ a barrel.

WEEKLY SUMMARY.

WEEKLY SUMMARY.

WASHINGTON, D. C., Aug. 5.—Summary of weather and crop conditions in the cotton region for the week ending Aug. 6: The temperature was mostly seasonable with light to moderate rains over the central and east portions of the belt, but west of the Mississippi river there was mostly an absence of rain. The crop has generally made satisfactory progress in Texas and Oktahoma, except in the northeastern portion of the latter state, where the crop has deteriorated, and mostly satisfactory in arkansas. Progress has been satisfactory in the delta counties of Mississippi, but less satisfactory elsewhere and rather poor in Georgia. Some improvement is noted in Louisiana. Condition ranges from about average to excellent in South Carolina and Northern Georgia, but continues shedding badly in the latter state. The condition or the crop in Texas varies from rather poor in the southeast to satisfactory and excellent in the west, northwest and northeast.

Weevil damage continues rather extensive in many localities. The week was generally favorable for other crops in the Southern states.
